1. Find the article you are interested in.

2. Copy-and-paste the URL that appears in the address bar into a text editor.

3. Replace everything up to .ca with:

So for the above example, https://libaccess.senecacollege.ca/login?url=http://online.culturegrams.com/world/world_country_sections.php?cid=24&cn=Botswana&sname=Greetings&snid=8 is a persistent link to the article above on greetings in Botswana.

4. Test all links before posting them via email, to course webpages, etc.
