OBTAINING PERSISTENT LINKS TO BOOK CONTENT

DSM LIBRARY

1. Find content in DSM Library that you are interested in:

2. You may create a link to the book’s main page with its Table of Contents, or you may click “Expand All” and then drill down to, and link to, specific content within the book. Regardless, display the content you want:

Last Updated: 5 May 2020
3. Copy the URL from the address bar. In the above example for the section on Neurodevelopmental Disorders, it is:

4. Replace everything up to /doi with:

Last Updated: 5 May 2020
So for the example,

5. Test links before posting via email, course webpages, etc.
