OBTAINING PERSISTENT LINKS TO ARTICLES
BUILDINGGREEN

1. Find content that you are interested in and copy the URL for it from the address bar into a text editor:

![Image of a web browser with a URL highlighted]

2. Replace everything up to including senecacollege.ca with...

   So for the above example,

   is a persistent link to the article on building hazards on the job.

4. Test links before posting via email, course webpages, etc.
